## Dealing Procedures -

Using a Shuffle Master - The cardroom dealer will begin by pushing the green button and placing the first pile of cards on the seat with the "Action" button and moving clockwise to distribute the seven card piles to all seats. The remaining four cards will be placed in the discard pile along with any pile of cards unused by a player seated at the table.

Hand-dealing – The card room dealer will begin by creating one pile of cards containing seven cards for all seven seats at the table. When dealing the piles of seven cards, the cardroom dealer shall deal one card at a time until there are seven individual cards, starting from left to right, lying face down. Once there are seven cards laid out, the dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining cards shall be placed in the discard pile along with any pile of cards unused by a player seated at the table.

Wagers shall be settled in a clockwise manner around the table, starting with the player with that "Action" button. Furthermore, all wagers shall be settled from seat to seat in the following order: Fortune Pai Gow game wager, then the Fortune Bonus Bet wager, if applicable.

## Number of Players in the Game -

Fortune Pai Gow Poker is played on a table which seats a maximum of seven players.

## Betting -

Players may place wagers bearing in mind the posted table minimum and maximum. Players must make a Fortune Pai Gow Poker game wager and will then have the option to make a Fortune Bonus Bet wager as well.

## Round of Play -

Each player puts up any bets they wish to place for the next hand. Players have the option of placing a Fortune Bonus Bet wager at this time as well. The cardroom dealer will then follow the dealing procedures and standards of play, as described above. Once the cards have been distributed, each player shall set their hands by arranging the seven cards into a two-card hand and a five-card hand. The two-card hand is placed above the five-card hand, and the five-card hand must rank higher than the two-card hand, according to the ranking of hands.

When all the players' hands have been set, the dealer exposes the Designated Player's hand and sets it according to the "House Way" as described below:

Hand	House Way
No Pair	The second and third high cards will be placed in the Low Hand; the highest and all remaining cards will be placed in the High Hand.
One Pair	Use the highest two single cards in the Low Hand; place the pair and all remaining cards in the High Hand.
Two Pair	If high pair is Aces, Kings, Queens – always split. If high pair is Jacks, 10's, 9's, - split unless Ace is front. If high pair is 8's, 7's, 6's – split unless King is front. If high pair is 5's, 4's, 3's – split unless Queen in front.

Continued on next page .....

Three Pair	Put highest pair in front.
Three of a kind	If Aces – always split. If Kings and below – never split. If two sets of three of a kind – split highest set.
Straight, Flush, Straight Flush	With no pair – always play the complete hand. With one pair – always play the complete hand. With two pair – play according to two pairs strategy. With three of a kind – play complete hand in back, pair in front. If straight, flush, and/or straight flush – put the two highest cards in front that will leave any complete hand behind.
Full House	Put the highest permissible pair in front.
Four of a kind	If Aces, Kings, Queens – always split. If Jacks, 10's, 9's – split unless King in front. If 8's, 7's, 6's – split unless Queen in front. If 5's and below – never split. If 4 of a kind with a pair – play complete hand behind.
Five Aces	Put pair of Aces in Front.

Once the Designated Player's hands are set according to the "House Way", each player's hand is exposed, in turn, and compared to the Designated Player's hands to determine the winners, losers, or tie hands.

Each Player's five card hand will be compared to the Designated player's five card hand, and each player's two card hand will be compared to the Designated Player's two card hand, in turn, starting with the "Action" button, to determine the winner according to the following criteria:

1. The Fortune Pai Gow Poker game wager wins if the two-card hand and the five-card hand held by the player ranks higher than the Designated Player's two card hand and five card hand. Winning Fortune Pai Gow Poker game wagers are paid 1 to 1.
2. The Fortune Pai Gow Poker game wager loses if the two-card hand and the five-card hand held by the player ranks lower than the Designated Player's two card hand and five card hand.
3. The Fortune Pai Gow Poker game wager "pushes" if one of the hands held by the player ranks higher than the Designated Player's corresponding hand and the player's other hand ranks lower than the Designated Player's corresponding hand. In this case, neither the player nor the Designated Player wins or loses, the wager is a "push" and is returned to the player.
4. If one hand is identical in rank to the Designated Player's hand, it is a "copy hand". The Designated Player wins all "copy hands"

Once the standard Pai Gow Poker wagers are settled (win, lose, tie/push), the dealer will determine if the player's hand qualifies for the Fortune Bonus Bet.

The Fortune Bonus bet considers the best hand possible among the player's seven cards and does not take into consideration how the five-card hand and two card hands were divided.

The dealer then collects all losing Fortune Bonus Bet wagers and pays all winning wagers and distributes them to the Designated Player as described herein. The cards are collected, shuffled, and a new round begins.

The Designated Player position rotation is offered in a clockwise motion every hand among all eligible Designated Players.

#### Fortune Bonus -

The Fortune Bonus Bet takes into consideration the seven cards dealt as a player's hand and not the high/low hands arranged by the player. The Designated Player pays these bets: In the event that the seven cards dealt to a player that placed a Fortune Bonus Bet wager is a qualifying hand, as shown below, the Fortune Bonus Bet Wager Shall win. The player shall then receive a monetary payout based on the bonus hand that the player was dealt, and the amount wagered by the player. Any other combination of seven cards dealt, other than the hands shown below, shall lose.

The Joker can be used as an ace, or to complete a straight, flush, or straight flush on the Fortune Bonus Bet.

The Designated Player may pay qualifying Fortune Bonus Bet wagers from his or her own chip stack only if the Designated Player's seven card Fortune Pai Gow Bonus hand loses to the player's seven card Fortune Pai Gow Bonus hand. Wagers are collected or paid, to the extent that the Designated Player's wager covers. Once the Designated Player's wager has been exhausted, or the table maximum payout has been reached, the wagers not covered by the Designated Player shall be returned to the respective players.

#### Fortune Bonus Bet Pay Table -
